

PowerBase® 3070AT

Calcium Hypochlorite Chlorinator

Low Maintenance. Big Benefits.

NSF/ANSI
Standard 50 listed

With a balance between space requirements, minimizing maintenance, and, above all, consistent chlorine delivery, this chlorinator is engineered to meet aquatic needs across a broad spectrum of pool sizes and environments.

So if you thought simple, safe and reliable chlorination was a fairytale, consider Westlake Water Solutions Accu-Tab PowerBase® 3070 AT system.

Model 3070AT

Engineered for *

- Indoor pools up to 1,120,000 gallons
- Outdoor un-stabilized pools up to 220,000 gallons
- Outdoor stabilized pools up to 400,000 gallons
- NSF 50 certified delivery — 10.2 lbs/hr chlorine
- Tablet storage — 70 lbs.

Specifications

Size..... 22"W x 34"L x 52"H
Inlet Connection 1½" Socket
Outlet Connection 1½" Socket
Electrical requirements 120V 20 amp circuit

*Stabilizer levels assumed to be 15 ppm. Treatable gallons vary depending on factors such as bather load, climate, stabilizer level, etc.

Flexible. Affordable. Reliable.

The Accu-Tab® system combines the erosion feeder technology of the PowerBase® chlorinator with proprietary 3 1/8-inch Accu-Tab Blue SI calcium hypochlorite tablets. Together, the system delivers predictable rates of chlorine for commercial pool water applications.

PowerBase Benefits

Easy to Install

- Two plumbing connections (inlet and outlet PVC plumbing)
- One electrical connection (plug included)
- One chemical controller connection (plug included)

Flexible and Easy-to-Operate System

- With or without chlorine controller
- Swimming pools and spray features
- Very few moving parts – minimizing maintenance
- No small openings that can clog
- Inlet strainer included
- Usually only annual cleaning required

Swimming Pool

Accu-Tab Blue SI 3 1/8-inch Tablets

Accu-Tab Blue SI 3 1/8-Inch calcium hypochlorite tablets are specially engineered and independently tested by the labs at NSF International to work in Accu-Tab systems in accordance with NSF/ANSI Standard 50 listed. They contain scale inhibitor for cleaner operation. For safety, the tablets have a blue-speckled appearance which differentiates them from incompatible chemicals.
